Early reading skills are imperative for success in school and life

**READING IS THE FOUNDATION FOR ALL FUTURE LEARNING**
Research shows that when students can read at grade level entering fourth grade, they are four times more likely to graduate from high school.

**THE NEED IS SUBSTANTIAL AND URGENT**
On the 2019 National Assessment of Educational Progress, only one out of five of our nation’s fourth grade students from low-income families were found to be reading at grade level or above.
